

SSAB's Environmental Policy

- SSAB promotes sustainability and is committed to continual improvement.
- SSAB strives to integrate sustainability into its operations including the evaluation of environmental risks.
- SSAB high-strength steels and products come with added value, which contributes to environmentally responsible and sustainable materials for our customers' products and solutions. By using high-strength steels SSAB customers can reduce their steel consumption, and with stronger, lighter and more sustainable products, further reduce energy consumption and environmental footprints throughout their life cycle.
- SSAB employees work in a systematic, goal-oriented and proactive manner to reduce the impact to the environment including pollution prevention and waste minimization.
- SSAB is committed to interacting with stakeholders and evaluating stakeholder concerns, both internally and externally.
- SSAB operations are subject to ongoing environmental audits. The company regularly establishes and reviews environmental objectives and targets. Environmental reports are provided routinely to Senior Management.
- SSAB has implemented and maintains environmental management systems covering policies, practices and procedures at each operating location, is committed to meeting or exceeding its compliance obligations, and is certified to the ISO 14001 standard, where applicable.
